

Key Information Document IMPORTANT NOTICE:

Bailiwick Investments Limited ('BIL') has followed the methodology prescribed by law (specifically, regulation known as 'PRIIPs') for the preparation of this document. PRIIPs requires that Performance Scenarios must be calculated using total return, being share price movements and dividend income, over the past five years which, in BIL's view, may exceed reasonable expectations of future performance. Accordingly, BIL cautions investors against relying on this Key Information Document as a basis for potential future returns and should refer to the latest offer document for further information.

What is this product?

Type This product is authorised by the Guernsey Financial Services Commission as a closed-ended collective investment scheme, and is listed on The International Stock Exchange. The Company currently has 57,000,000 ordinary shares of no par value in issue, which are only available for trading on the secondary market.

Strategy The Company has been established with the objective of attaining long term capital growth by investment in a diversified portfolio of investments principally in businesses, property and assets situate, registered, headquartered in or managed from the Channel Islands or in relation to which through the involvement of Channel Islands businesses or individuals, resident in the Channel Islands, there is a material Channel Islands interest. The Company will favour companies that are strongly cash-positive.

Intended Investor An investment in the product is only suitable for investors who have been professionally advised with regard to investment, or other financially sophisticated investors who are capable of evaluating the merits and risks of such an investment, and who have sufficient resources to be able to bear any losses that may arise therefrom (which may be equal to the whole amount invested). Such an investment should be seen as complementary to existing investments in a wide spread of other financial assets and should not form a major part of an investment portfolio. Investors should not consider investing in the product unless they already have a diversified investment portfolio. Investment in the product should be regarded as long-term in nature.

Maturity The product has an indefinite life.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. There is no specific recommended holding period for this product, although 5 years has been used for the purpose of the calculations in this document.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the capacity for you to receive a positive return on your investment. You may not be able to sell the product easily which may mean that you have to sell at a price which impacts on how much you get back.

The following are some of the other risks materially relevant to the PRIIPs which are not taken into account in the summary risk indicator:

This product is sensitive to changes in financial regulation, Channel Islands international financial and tax status, and local economy.

There can be no assurance that an active trading market in the Ordinary Shares will develop and be sustained and, if no such market is developed, the price and liquidity of the Ordinary Shares will be adversely affected.

Any governmental restrictions imposed and total or substantial disruption of business activity in any jurisdictions may impact adversely on the Company's NAV, dividend income or share price.

	Average return each year	4.5%	4.2%	4.2%
Favourable scenario	What you might get back after costs	£11,523	£13,500	£15,431
	Average return each year	15.2%	10.5%	9.1%

This table shows the money you could get back over the next 5 years (recommended holding period), under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Bailiwick Investments Limited is unable to pay out?

Investors in the Company are not eligible for the payment of any compensation under the Collective Investment Schemes (Compensation of Investors) Rules 1988 made under the Protection of Investors (Bailiwick of Guernsey) Law, 1987 (as amended).

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

Table 1: Costs over time

The person selling to you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios (£10,000)	If you cash in after 1 year	If you cash in after half assumed period of 5 years (after 3 years)	If you cash in at the end of the assumed period of 5 years
Total costs	£222	£681	£1,160
Impact on return (RIY) per year	2.22%	2.22%	2.22%
